

MetroHealth House Officers' Association

March 2019

On behalf of the House Officers' Association, I would like to welcome you to MetroHealth Medical Center. The MetroHealth House Officers' Association exists to improve the lives of House Officers (residents and fellows) and acts as a liaison between all residents and fellows, the medical faculty, the Residency Support Office, the Graduate Medical Education Committee, and the clinical and non-clinical support staff on your behalf.

The House Officers' Association represents over 300 residents and fellows from all departments. We are here to promote and improve educational activities, to organize recreational and social activities, to serve as a voice to address any and all of the residents and fellows and to generally improve the quality of life for all residents and fellows within MetroHealth.

The House Officers' Association sponsors a free beverage weekly, monthly social hour at local establishments, free movie tickets/ gift cards monthly, discounted price to Metro's gym, combined events with residents from UH/CCF (Halloween, St. Patrick's Day), a holiday party, among other activities. We are also committed to providing you with opportunities for community service to various organizations around the Cleveland metropolitan area.

The HOA Executive Committee is made up of house staff elected residents and fellows. The Executive Committee meetings are held once each month and are open to all members. For any new house officers interested in becoming members of the Executive Committee, there are always opportunities for you to get involved.

HOA members also sit on the many committees at MetroHealth, such as the Graduate Medical Education Committee and many Patient Safety and Quality Committees.

The residents and fellows at MetroHealth are a diverse, well-woven group of individuals. The House Officers' Association truly represents this group and will continue to do so in the coming years. Please feel free to contact me if you have any questions or if there is anything we can do to help make your transition to MetroHealth easier.

Sincerely,
Minh-Tri Nguyen, MD
President
